EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The following has been inserted as the first line of the specification: "This application is based upon and claims the benefit of priority from prior Korean Patent Application No.24925/2003, filed April 19, 2003."

Claims 1-24 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The three patents cited by the examiner each state at column 33, lines 46-49 "Byte alignment must also be managed with real data, since any padding bytes will corrupt the data stream if they are not part of the actual compressed video data".

The following is an examiner's statement of reasons for allowance: None of the cited references teach or fairly suggest placing an error detection code within the alignment field (or code) of an image block (or frame) as is recited in all of applicant's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
